

# » WEH® QUICK CONNECTORS

## for testing of straight tubes and bores

- » Connection in seconds
- » No hand tightening required
- » Wide range of tube tolerances
- » No seal adjustments required
- » High-grade materials

WEH® TW221

WEH® TW241

WEH® TW230

WEH® TW141

## » WEH® Connectors for testing of straight tubes and bores

Wherever straight tubes have to be pressure tested or function tested, the WEH® Connectors are the right tool, being ideal for applications in the refrigeration and air conditioning industry. Testing applications include heat exchangers, pressure vessels, valves, transducers, compressors, condensers, evaporation coils, air conditioners or heating systems and

many more HVAC-R components. In the automotive industry the quick connectors are used for radiator testing. Simplified workflows, shorter operating times and increased productivity can be achieved when using the WEH® Connectors.

A wide range of quick connectors for connection onto straight tubes or into straight tubes and bores are available comprising a wide choice of sealing ranges.

### TECHNICAL DATA:

Type	TW141	TW221	TW230	TW241
Sealing range	4.8 - 22.2 mm tube OD	9.5 - 30.4 mm tube ID	9.5 - 2.2 mm tube ID	6.0 - 44.0 mm tube OD
Max. allowable operating pressure PS	Vacuum up to 100 bar	3 bar	Vacuum up to 70 bar	Vacuum up to 70 bar
Seals	O-ring sealing	Special sealing	O-ring sealing	Special sealing
Nominal bore DN	3 to 5 mm	2 to 4 mm	2 to 5 mm	4 to 19 mm
